Continuation of 4(e) Other: Claims 27-32 are not accounted for in the claim listing. Furthermore, the claim listing filed 31 July incorporates the changes to claim 6 that were presented in the 19 December amendment without markings and indicates that the claim is "previously presented". As the claim amendments filed 19 December 2005 were not entered, the new claim set filed in response to this Office letter should include all changes made relative to the 21 March 2005 claims (i.e., the most recently entered claim listing).

As a separate issue, it is noted that Applicant's submission includes a listing of publications, many of which are relied upon to substantiate assertions in the remarks. It appears that several of the listed publications have not yet been made of record in the Application either by the Examiner on a PTO-892 or by Applicant in an IDS. As Applicant has submitted the list of publications for consideration by the Examiner and discusses some of the publications in the remarks, it would seem that the publications are considered material to patentability of the claimed invention. In that regard, Applicant is reminded that according to Rule 1.56, "The duty to disclose all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office IN THE MANNER PRESCRIBED BY §§ 1.97(b)-(d) AND 1.98." (Emphasis added.) Applicant is urged to make of record all publications considered to be material to patentability by the filing of an IDS in accordance with the requirements of Rules 1.97(b)-(d) and 1.98..
